

The First 400 stories in the African Stories Database Have Been Revised

Due to the popularity of this feature, we have recently revised all 400 stories to ensure accuracy for our users. We recognize that story-seekers are regularly referring to our African Stories Database for stories to use in articles, talks, collections, etc. and we enjoy providing this opportunity for our users.

To locate the African Stories Database go to our main page. On the left-hand side, under "Resources," please find the newly added category "African Stories Database" or click on the following link <http://www.afriprov.org/story/searchstory.htm>.

And remember, if you use a story we would appreciate you letting the Moderator (Moderator@afriprov.org) know so we can share this news with others.

Enjoy!
