

As part of our regular updating the "Maps of Africa" Page under "Resources" has now been expanded

As part of our regular updating the “ [Maps of Africa](#) ” Page under “Resources” has now been expanded. There are now two maps of the continent of Africa: an outline map in color and the National Geographic map. Each map lists the 42 African countries in alphabetical order from which we have posted the “African Proverb of the Month.” Throughout our website there are additional clickable links to maps. Many thanks to Nicholas Adongo for these updates. Comments are welcome.
